LIST OF PROMISES MADE BY GOVERNMENT AT THE MEETING
OF THE REPRESENTATIVE ASSEMBLY IN JUNE 1930.

Sl. No.	Promise	Action taken
1	In reply to Mr. A. Narayana Iyengar who enquired whether Government contemplated to change the rules <i>re</i> : grant of House Building Advances to the employees of Local Boards, the Second Member of Council said that Government would consider the matter. (Supplementary Question to Question 1.)	
2	In reply to Mr. Dyavappagowda's query whether Government would not get more revenue if the Kudlur Ane work was undertaken, the Third Member of Council said that Government would enquire into the matter and that a survey would be made to see if the project was really advantageous. (Supplementary Question to Question No. 2.)	
3	Referring to Mr. K. A. Rahim's observation that when contribution had been paid by the people for effecting repairs to the Kalyani in Hulikere, adequate arrangements ought to have been made for effecting the necessary repairs, the Second Member of Council said that they would be done. In reply to Mr. B. P. Basappa Setty's question whether proper steps would be taken to put the work on hand at once, the Second Member of Council said that it would be considered. Referring to Mr. H. B. Gundappa's query why no repairs were effected so far, the Second Member said that the whole matter would be considered after the report called for was received from the Department. As regards the remark of the same member that instances of such kinds of delay were increasing and that proper explanation should be taken from the officers concerned, the Second Member of Council observed that he was not prepared to accept the statement that there were many instances of this kind. He, however, said that an enquiry in the present case would be made. (Supplementary Question to Question 3).	

Sl. No.	Promise	Action taken
4	In reply to Mr. Ramiah Setty's question as to how long Government would take to restore the tank at Belagoor in Hosdurga Taluk, the Third Member of Council stated "We shall decide as soon as possible." (Supplementary Question to Question 7.)	The Superintending Engineer, Shimoga Circle, has been asked to submit the project for Rs. 8,620 for sanction.
5	In reply to Mr. Haveri Basappa's question whether a small amount of Rs. 8,000 could not be provided for the conversion of the Harihar Sub-Taluk, the Second Member of Council said "We shall do it next year." (Supplementary Question to Question 10).	
6	With reference to the request of Mr. Gurusami Gowda that mileage to officials drawing less than Rs. 40 be raised to the old level, the First Member of Council said that the order was temporary and that Government would see what changes were required when it came up for revision. (Subject No. 1).	The arrangement ordered in the Government Order of 15-2-1929 is continued for another year tentatively and particulars are called for from the Comptroller with a view to further examine the question.
7	In reply to Mr. Dyavappa Gowda's request for the revival of the old upset price of Rs. 10 per acre for lands fit for coffee cultivation, the Second Member of Council observed that the matter would be considered. (Subject No. 2.)	
8	As the bagayet lands of the neighbouring villages would also be benefited by the construction of a tank at Jiladagundi, Molakalmuru Taluk, Mr. Sugurappa asked whether Government would consult the raiyats concerned, and if they agreed to an increase in the rate of assessment on their lands, investigate the project further and commence the work. The Third Member of Council promised to consider the suggestion. (Supplementary Question to Question 12.)	The Superintending Engineer has been asked to submit a report immediately.
9	Discussions on the Bill to amend the Mysore Land Record of Rights Regulation, X of 1927. (i) The Second Member of Council said that the suggestion of Messrs. Narain Murthi and Gundappa Gowda that the word 'modify' might be substituted for 'enhance' would be considered. (ii) In reply to Mr. H. B. Gundappa Gowda's request that the time allowed for appeal against the decision of the Hisse Survey Officer should be raised from one month to three months, the Second Member of Council said that Government had no objection to the matter being considered in the Select Committee.	

Sl. No.	Promise	Action taken
10	(iii) Referring to the observation in para 5 of the statement of general principles that 'fees are however levied under the rules for the investigation of claims and other processes', Mr. D. S. Mallappa said that the Regulation did not provide for 'other processes' and that if Government charged fees for such processes outside the preparation of plans and maps, it was plainly against the provisions of law. He suspected that the present Bill was meant to regularise the wrong procedure adopted by Government. .The Second Member of Council, however did not agree with the contention that incidental charges were not covered by the expression 'cost of preparation of maps and plans'. He added that the Revenue Commissioner promised to send a statement showing the receipts and expenditure on account of the introduction of the Record of Rights scheme in the taluks and if it was found therefrom that the present levy was more than was required, Government would consider the question of reducing the fees. (iv) In reply to Mr. H. C. Dasappa's query whether the revision of the rules would depend on the promulgation of the amendment herein suggested, the Second Member of Council said that a certain rate had been fixed by the rules framed under the Regulation and the Government may revise it irrespective of whether the amendment before the House was accepted or not, and that if there were any changes in the rules, they would be published. (v) In reply to Mr. N.Channappa's enquiry whether the amount of fees already collected by Government without legal authority had been kept separately and would be refunded, the Second Member of Council said that it would not be possible to refund the money to individuals concerned, but that it would be set apart for some local object. He added that for the future the rate would be reduced. Mr. P. Murugesam Pillai prayed that scholarships might be given to at least 10 or 12 Depressed Classes' candidates at a time, for training in motor mechanism; and (ii) that in view of the fact that leather industry in Mysore had not been developed, the depressed classes people who were interested in the industry be sent to Madras for training in it with suitable Government scholarships. The Third Member of Council promised to note both the points for consideration.	

Sl. No.	Promise	Action taken
11	Mr. Guruswami Gowda requested that the bund of the Yelemallappanakere on the Bangalore-Madras road might be widened as there were frequent accidents and that provision therefor should be made in the current budget. The Dewan replied that the matter was under consideration. (Discussions on the Budget.)	A report has been cancelled for from the Superintending Engineer.
12	In reply to Mr. Bale Siddalinga Chetty's request that more provision should be made for the improvement of Yedatore town, the Dewan promised to consider the matter. (General discussions on the Budget.)	
13	Mr. Gopalachar emphasised that if the extent of the survey was very large, then the Government were justified in levying the fee of Rs. 8. But where it was very much less, the rate worked as a great hardship on the raiyats. The Second Member of Council said that the question of fixing a separate minimum fee for phoding smaller extent of survey numbers would be considered by Government. (Representation No. 5.)	Reports from the Revenue Commissioner and Survey Superintendent are awaited.
14	Mr. Krishnamurthiachar requested that the bund of the Padmaghatta tank near Mulbagal might be widened and provided with railings on either side of it. The First Member of Council said that the request would be noted for consideration. (Subject No. 3.)	
15	In reply to Mr. A. M. Venkatasamiya's representation that the back assessment on encroached lands levied during resurveys might be collected in instalments instead of in a lumpsum, the Second Member of Council observed that the Revenue Commissioner would issue the necessary orders in the matter and the Government would have no objection to take the amount in instalments. (Subject No. 9)	
16	As regards land revenue collections, the Second Member of Council said that instructions would be issued to the Patels that they should adhere to the rules and make the collections from the raiyats at the Village Chavadi. (Subject No. 17).	
17	With reference to the question of revising the grants for annual maintenance of roads, the Third Member of Council said that the matter was under consideration and that suitable provision will be made for the Shimoga-Mangalore Road next year also. (Supplementary Question by Mr. B. Gopalachar to Question 37.)	

Sl. No.	Promise	Action taken
18	In reply to Mr. B. Gopalachar's question that the bad condition of the road is due partly to the fact that the branches of avenue trees are not cut off for long, the Third Member of Council replied that the Chief Engineer's attention would be drawn to that matter, and that next year the Shimoga-Mangalore road would be improved also to the utmost extent possible. (Supplementary Question to Question No. 39.)	
19	In reply to the supplementary question of Mr. N. Chennappa, whether it was not a fact that the prohibitory order was passed only three days before the jātra and that when the people, who did not know about it, went there, they were driven back by the Police, the Second Member of Council replied that a further enquiry would be made with reference to the facts mentioned. (Supplementary question to Question 40.)	
20	The Second Member of Council said that the report of the enquiry into the disturbances on the Kolar Gold Fields in April 1930 would be placed at the disposal of the Press. (Answer to Supplementary Question to Question 41).	
21	The Second Member of Council said that full authority could not be given to Jamabandi officers to grant permissions, but that a Government Order containing comprehensive instructions was under issue and that remissions would be sanctioned according to that. (Subject No. 19.)	
22	The Second Member of Council said that the question of reducing the higher rate of Rs. 2 levied on each hisse would be considered along with the general scheme of reduction of phoding charges. (Subject No. 22.)	
23	In reply to the complaint of Mr. Meer Mahomed Sab, the First Member of Council said that the concession of taking bamboo slits free of license fee would be allowed in the case of Tarikere. (Subject No. 23.)	
24	The Second Member of Council further said that the question of trying the experiment of prohibiting drink in one taluk was under contemplation and that a committee would have to be appointed in the first instance to work out the details. (Discussions on subject No. 27.)	
25	In reply to Mr. Puttaswamy's representation, the Revenue Commissioner said that he had discussed the matter with some people from T.-Narsipur and that he would make suitable recommendations to the Government in the matter of hot weather supply under the Kapila and Cauvery channels. (Subject No. 66.)	

BUDGET RESOLUTIONS—JUNE 1930.

Serial number of Resolution	Resolutions	Government's reply	Disposal	Action taken
1	This Assembly recommends to the Government of His Highness the Maharaja that so much of the amount as is required for the grant of scholarships to the Baniara Community students be separated from out of the amount provided in the Budget for the scholarship of backward communities. (Resolution No. 1 by Mr. Jatra Naik)	The Third Member of Council replied that the question whether the scholarship amount could be fixed separately for the community on the population basis would be considered.	The resolution was withdrawn.	The question will have to be considered at budget time in consultation with the comptroller and the Director of Public Instruction.
2	This assembly recommends to Government of the supreme necessity for effecting retrenchment in the expenditure of State's Administration, especially at the top. (Resolution No. 3 by Mr. Hosakoppa Krishna Rao.)	The Financial Secretary said that Government could not see their way to accept the resolution.	The resolution was passed by a large majority.	
3	This Assembly recommends to the Government of His Highness the Maharaja the necessity for making suitable provision in the Budget for starting a Coffee Bank immediately. (Bagamane Devagowda.)	The Secretary to Government Development Departments said that the scheme submitted by the Board of Industries as also some other proposals, were being considered; that Government had not yet come to a decision but hoped to do so as soon as possible; that they were aware that the matter was urgent and were going to pass orders early.	In view of the sympathetic reply, the resolution was withdrawn.	
4	This Assembly recommends to the Government of His Highness the Maharaja that adequate allotment be made towards inter-village and inter-taluk communications under the grant of "Communications" towards the improvement of rural areas, especially in Malnad. (Resolution No. 12 by Mr. B. Gopalachar.)	The Dewan replied that if the village panchayats and District Boards did their duty, Government would also be prepared to give every help possible, but that the resolution could not be accepted.	The resolution was withdrawn.	

5	This Assembly recommends to the Government of His Highness the Maharaja that the allotment in the Budget for 1930-31 under the heading "30 Grants to Public Improvements—6 Drinking Water Wells in the villages" be adequately increased. (Resolution No. 28 by Mr. B. L. Byanna.)	The First Member of Council assured the Assembly that the Deputy Commissioners would be asked to take necessary steps to provide drinking water facilities wherever they were found to be urgently needed. The Dewan added that Government fully realised the position of the villages in the matter and would do their utmost to improve their lot, and that this was evidenced by the fact that in the course of three years the number of bore-holes had largely increased. He added that compared to previous years, the work of sinking wells had improved and that Government could only promise that it would be accelerated. The Dewan further observed that Government would do their utmost to create better facilities for drinking water in villages and assured the Assembly that Government felt as much for the raiyats as anybody else.	On the assurance of the Dewan the resolution was withdrawn.
6	Some, years ago, as the raiyats were giving <i>mirasis</i> to Thoties and Talaris, they were assisting the Patels. Latterly these <i>Mirasis</i> are stopped and so the Patels themselves have to attend to all Government work. Since the responsibilities of the Patels have increased of late, this Assembly recommends to the Government of His Highness the Maharaja that the <i>Potgi</i> payment made to the patels of Malnad parts be increased. (Resolution No. 46 by Mr. C. Subbanna Naik.)	The Revenue Commissioner said that if Government were approached by the villagers, it would be possible to obtain small plots of land for cultivation by Thoties and Talaris. He also remarked that it was not quite relevant to link the question of increasing the <i>Potgi</i> of Patels with that of granting <i>Umbli-Janinis</i> to the village servants. It was further explained that the resolution could not be accepted on financial grounds and that people who sought the hereditary appointments of village officers cared more for the status than for remuneration.	The resolution was not pressed.

(Resolutions Dasara Session, 1930)—*concl'd.*

Serial number of Resolution	Resolutions	Government's reply	Disposal	Action taken
7	That this Assembly recommends to the Government of His Highness the Maharaja that provision be made in the Budget Estimate for starting a Technological College in the State. (Resolution No. 50 by Mr. M. Ramaswamy.)	The Third Member of Council pointed out that the question being a very important one and the work of the Committee being very responsible, no conclusions could possibly be arrived at off-hand as many details had to be very carefully considered. Anyhow he promised that the matter would be speeded up.	The resolution was withdrawn.	
8	That this Assembly recommends to the Government of His Highness the Maharaja that the hereditary office of Shanbhogs be abolished, and that the system prevailing in the Madras Presidency of appointing Shanbhogs on fixed pay be introduced. (General Resolution No. 7 by Mr. S. C. Malliah.)	The Second Member of Council replied that an official Committee had been appointed by Government to go into the question and that necessary action would be taken as early as possible soon after their report was received. In reply to the suggestion of some members for the appointment of a Mixed Committee, the Second Member of Council said that that point would be considered. Mr. H. B. Gundappa and others requested the Government to accept at least the principle of the resolution. The Dewan regretted that Government could not accept the resolution but would make further enquiries into the matter, and that a Committee would be appointed for the purpose.	The resolution was put to vote and passed by a large majority.
